

BRIEF SUMMARY

Aspiring web developer seeking a challenging position where I can leverage my expertise in front-end development to contribute to the creation of innovative web solutions. Eager to apply my skills in HTML, CSS, JavaScript, and modern frameworks like React.js to develop responsive and user-friendly websites. Actively seeking opportunities for skill enhancement and committed to continuous growth. Enthusiastic about Cloud Computing, with a drive to excel in this dynamic field. Skilled in Amazon S3 management, CI/CD pipelines with AWS CodePipeline, CodeBuild, and CodeDeploy, and overall AWS services.

KEY EXPERTISE

MERN C++ DSA Python Figma

EDUCATION

MIT Academy of Engineering, Pune

2021 - 2025

B.Tech. - Computer Science and Engineering | CGPA: 7.66 / 10

Vidya Vikas Mandir, Pune

2020

12th | Maharashtra | Percentage: 68 / 100

Vidya Vikas Mandir, Pune

2018

10th | Maharashtra | Percentage: 87 / 100

PROJECTS

PARKING MANAGEMNET SYSTEM

Mentor: Promod Ganjewar

Key Skills: Open CV OCR HTML CSS JS

The project aims to develop a parking management system using OpenCV and OCR for license plate detection and recognition, and YOLO for vacant spot detection. It involves capturing video input from CCTV cameras, processing frames to detect vehicles, extracting license plates, recognizing characters using OCR, and identifying vacant spots with YOLO. The system will feature a user-friendly dashboard for real-time monitoring of parking status. Overall, it's a comprehensive solution for efficient parking lot management.

Spotify Clone

Key Skills: HTML JS ReactJS Bootstrap

A Spotify clone is a music streaming platform inspired by the popular music streaming service, Spotify, offering users access to a vast library of songs, personalized playlists, social features, and offline listening. It allows users to discover new music, create playlists, follow friends, and enjoy high-quality audio streaming across multiple devices.

PERSONAL INTERESTS / HOBBIES

- Competitive Programming
